REVISED AGREEMENT PROPOSED BY MADRAS.

Chief Secy. with Complements

The changes proposed by Madras are shown in the enclosed statement with the remarks of this office thereon.

I think the clause newly inserted by Madras that the transmission line should be removed within six months of the date of notice comes in the way of Mysore taking advantage of any permanent demand for power by other agencies near Metur. It may be got modified if possible so that Mysore may be able to sell power for about five years at least after completion of Metur Dam to any other agency that may require power.

Another addition which I would like to propos now is that Mysore should be allowed to sell power to other agencies besides Metur Works during the currency of the Agreement. Nothing is mentioned in the Agreement in regard to this.

CHIEF SECRETARY. 22 MAY 1928

Vol
21.5.28

To Secy, Law Dept with Compliments for an early expression of opinion

11(e) continued.

minimum charge will take place before 31st March 1933.

14.

14. This Agreement shall continue up to 30th June 1933 and for so long thereafter as power is required for the construction of the Metur Dam Works. The Madras Government shall give not less than three months notice of the expected date of completion of the construction.

charge will take place before the
of 60 months under the terms of
pply.

is Agreement shall continue for not less
months from the date of notice referred
lause 12 (d) and for so long thereafter
power is required for the construction of
tur Pam Works. The Madras Government shall
t less than three months notice of the
d date of completion of the construction.
ore Government shall remove all plant and
longing to them and situated within --
territory within a period of six months
said date.

Para 14 has been remembered as 15 by Madras.

The portion in brackets underlined is an addition proposed by Madras. This is a new clause not advantageous to Mysore. The profit from the Scheme will not be much as it was for 60 months. and the Government hoped that a permanent demand might arise for the power available. This clause makes it difficult to take advantage of such a demand. An attempt should be made to get this clause modified if possible.

Reg. No 7465

Two questions are raised (1) time being kept up after the termination of the contract to enable mysore Govt to sell power to any agency for a period of 5 years (2) a provision being made in the agreement to enable Govt to sell power to other agency during the currency of the agreement;

It would have been better to have raised these points before the conclusion of the agreement.

In Re Ques no 2

In the absence of express agreement prohibiting the sale of power to other agencies Govt may sell power during the currency of the agreement.

In Re Ques no 1.

It is necessary that there should be an express agreement to keep in tact the line for a definite period after the termination of the agreement.

We may propose these terms now
It means delay in completing the transaction

Letter No. 3695 B/23-6, dated the 27th April 1928, from the Secretary to the Government of Madras, Public Works and Labour Department, to the Hon'ble the Resident in Mysore.

---:0:---

Supply of electric energy from Sivasamudram to Metur.

I am directed to acknowledge the receipt of your letter No. 1922/21-1928 dated 24th February 1928 and to state that as the Engineer-in-Chief, Metur, has since reported that power will now be required for 60 months, as originally proposed, the revised draft agreement forwarded by the Mysore Government has been again modified restoring the original provision about the period of supply and the rates agreed upon at first. The Government regret the trouble caused by these changes, but as the date for the delivery of the big placing machinery had to be extended at the last moment, they were unavoidable. Otherwise the Madras Government accept the terms of the draft proposed by the Mysore Government.

2. I am to enclose two clean copies of the agreement thus revised duly signed by me on behalf of the Madras Gov ment and to request that you will be so good as to have them signed on behalf of the Mysore Government to return one copy for record in this office.

3. The formal orders under Sections 28 and 51 of the Indian Electricity Act to enable the Mysore Government to operate in the British territory, will be sent with a separate communication and in this connection I am to ask that the Mysore Government may be requested to instruct their Chief Electrical Engineer to send to the Electrical Inspector to the Government of Madras the drawings and connected data f the overhead lines to the Metur Dam works to enable him to accord sanction under section 18 (1) of the Act, and draf such new rules as may be required under the Act to cover terms of the agreement.

4. I am also to confirm the consent of the Madras Government to reimburse to the Mysore Government the amour

any income-tax that they may have to pay on their earnings under the agreement; and to add that, as requested in paragraph 4 of the Mysore Government's letter the Madras Government also agree to bear the extra cost involved in any departure from Mysore standard practice that they may find it necessary to require and to make allowance for any delays entailed by such changes.

---:0:---

Captain.

REGISTRAR, RESIDENT'S OFFICE.

AVR

AGREEMENT.

1.Agreement.

Agreement made this 27th day of June 1928 between the Government of Mysore of the one part and the Government of Madras of the other part whereby it is agreed as follows:-

2.Conditions of supply.

The Government of Mysore shall supply at the receiving Station situated in the Metur Dam Works electrical energy in the form of a 3 phase alternating current at a pressure of (3300) three thousand three hundred volts across phases and a frequency of fifty cycles per second and the supply shall be available continuously throughout the whole period of the agreement. The power will be transmitted to Metur over a duplicate circuit transmission line and there stepped down by means of three 2200 K.V.A. three phase transformers with a fourth transformer as a spare. The power will be converted from 25 cycles to 50 cycles by means of 3 motor generator sets each of not less than 1500 K.V.A. output.

3.Receiving station at Metur and its equipment.

The Government of Madras shall permit the Government of Mysore to occupy free of charge four 20 feet bays for the full width of the building in the existing Power House at Metur or such other accommodation in and adjacent to the Power House as may be found necessary and agreed upon between the parties together with necessary space outside of the building for the dead-end structure and lightning arrester installation.

4.Responsibility for Mysore Government's apparatus at Metur.

The Government of Madras shall be responsible to the Government of Mysore for the safe custody of all the Mysore Government's apparatus at Metur and in the event of loss by theft or damage by fire (except fire originating in the property of the

Government

Government of Mysore) shall replace or repair the apparatus lost or damaged.

5. Accommodation for operating establishment at Metur.

5 The Government of Madras shall provide at Metur and to the standard provided for Madras Government servants of similar status free unfurnished housing, water, sanitation and electric lighting for the Mysore Government operating establishment for the duration of supply and during the construction period.

6. Compensation or Royalty for works on Government land.

6 The Mysore Government is not to be charged by Madras Government compensation or royalty in any shape or form on account of their works on Government land within the Madras Territory.

7. Maximum demand.

7 The average demand of 2040 K.W. approximately at or above 0.75 power factor shall be available normally for 12 hours per day but after 12 hours telephone notice this power shall be available for 24 hours per day. The normal night power requirements will be available without notice. The telephone line necessary for this purpose shall be put up and maintained by the Mysore Government.

8 The normal peak load shall not exceed 3500 K.W. at or above 0.8 power factor.

8. Commencement of supply.

8 A partial supply of 750 K.W. shall be available by November 14th 1928, i.e. 9½ months from the 30th January 1928, i.e., the date of preliminary acceptance of the agreement; full supply shall be available within 4 months from the commencement of the above partial supply. No penalty shall be incurred if the supply is not ready on these dates by reason of causes beyond the control of Mysore Government.

9. Transmission line.

10 The factor of safety of all portions of the transmission line shall be at least two under all

conditions

conditions, the maximum wind pressure being 10 lbs. per square foot with an addition of 10 per cent for every 1000 feet of elevation above sea level and shall be according to Mysore Government standard practice.

10. Meters.

The energy supplies shall be measured by means of three similar three phase meters which shall be supplied and maintained by the Mysore Government; the Madras Government shall pay the full cost of supplying and maintaining two of these meters; each three phase meter shall be complete with a separate set of current and potential transformers. The meters shall be read monthly and the consumption shall be taken to be the average of the reading of the three meters but in the event of one of the said meters varying more than 2.5 per cent from the average of the other two meters the mean between these two shall be taken; if only one meter shall be considered accurate then the reading of that one shall be acted upon; and if all three meters are manifestly inaccurate then the charges for the period of time in question shall be a just charge having regard to the average of prior periods and the circumstances of the case.

11. Accuracy and testing of meters.

Should any dispute arise between the parties to this agreement as to the accuracy of the readings obtained under the preceding clause either party may upon giving notice to the other have one or all the meters tested by the Professor of Electrical Technology of the Indian Institute of Science and if upon these tests being made the inaccuracy is found to be more than two and a half per cent the Mysore Government's accounts shall be adjusted as may be required. Should the inaccuracy prove to be less than two and

half per cent no adjustment shall be made. The expenses of such testing shall be borne by the Mysore Government in the event of the account requiring adjustment but if no adjustment follows then the expenses shall be borne by the party at whose instance the test is made.

12. Tariff. The Government of Madras shall take the energy and the charges for the energy supplied shall be according to the following sliding scale:-

(a) Quantity of energy supplied in the month (Board of Trade Units) supplied as per the next following clause.		Rate per Board of Trade Unit.
Up to 374,999 units	..	0.750 of an anna per unit.
375,000 to 399,999 units	..	0.725 "
400,000 to 424,999 "	..	0.700 "
425,000 to 449,999 "	..	0.675 "
450,000 to 474,999 "	..	0.650 "
475,000 to 499,999 "	..	0.625 "
500,000 to 524,999 "	..	0.600 "
525,000 to 549,999 "	..	0.575 "
550,000 and above "	..	0.550 "

(b) The rates in (a) above shall be daylight rates for 12 hours namely, 6 a.m. to 6 p.m. or any other period of 12 hours to be agreed upon from time to time to suit the Madras Government's work at Metur and also the above rates shall apply for all night consumption except as provided for in the next following clause.

(c) For all power consumption after the period referred to in (b) above the rates per unit shall be 0.40 anna per unit for the power consumed during any period of not less than three hours in which the average load is not less than 750 K.W. The consumption under this clause shall not be used to determine

determine the rate at which the power supplied under (b) above will be billed.

(d) When the heavy motor driven construction plant is erected and ready for service the Governmer of Madras shall notify the fact to the Government of Mysore and from that date the charges for energy shall be subject to a minimum charge of 300,000 units per mensem at 0.75 anna per unit, and for this purpose the period from when the full supply is available under clause 7 of this agreement to the date when the above mentioned notification is given shall be limited to 6 months.

(e) When, owing to natural deceleration of construction, the normal power requirements diminish the minimum charge specified in 12 (d) above shall be reduced proportionately with the reduced power requirements subject to an absolute minimum charge for 100,000 units, but no reduction in the minimum charge will take place before the expiry of 60 months under the terms of full supply.

13.Monthly Accounts.

The Mysore Government shall send to the Madras Government a statement of accounts of the electrical consumption during each calendar month and the Madras Government shall pay the amount due within thirty days of the receipt of that account.

14. Liquidated damages for power supply stoppages.

1. The liquidated damages for power supply stoppages shall be:-

(a) Rs.1,000/- per hour or part of an hour after one hour during the working period of the construction plant.

(b) Rs. 100/- per hour or part of an hour after one hour when the construction plant is not working.

2. Provided, however, that no penalty by way of liquidated damages is payable under the above clause (1), (a) and (b) if the stoppage is due to causes beyond the Mysore Government's control such as Vis Major, War, riots, storms, fire and floods.

15. Period of Agreement.

This agreement shall continue for not less than 60 months from the date of notice referred to in clause 12(d) and for so long thereafter as power is required for the construction of the Metur Dam Works. The Madras Government shall give not less than three months notice of the expected date of completion of the construction. The Mysore Government shall remove all plant and line belonging to them and situated within Madras territory within a period of six months of the said date.

16. Arbitration.

The Madras Government and the Mysore Government hereby agree that, if at any time, there should arise any dispute between the Madras Government and the Mysore Government touching the interpretation or operation or carrying out of this agreement, such dispute shall be referred for settlement to arbitration or if the parties so agree shall be submitted to the Government of India.

Subject: Supply of Electric Energy from Sivasamudram to Metur.

S i r,

With reference to your Memo No.4588/21-1928 dated the 9th May 1928, regarding the supply of electric energy from - Sivasamudram to Metur, I am directed to return herewith duly signed on behalf of His Highness' Government one of the -- copies of the revised agreement forwarded therewith. I am however to state that the last sentence in clause 15 which has been newly inserted is really not necessary and may perhaps be omitted. Clause 7 having been renumbered as Clause 8, the reference to this clause contained in Clause 12 (d) - may be corrected.

On hearing from the Madras Government that they are -- agreeable to these amendments, the same will be carried out - in the copy of the agreement retained here.

The Chief Electrical Engineer, Mysore Government, has been requested to send to the Electrical Inspector to the Government of Madras the drawings and connected data for the over-

head

overhead lines to the Metur Dam Works as desired by the Madras Government.

I have the honour to be,

S i r,

Your most obedient Servant,

CHIEF SECRETARY TO GOVERNMENT.

GOVERNMENT OF MADRAS.

Abstract.

Electricity - supply from Sivasamudram to Metur Dam Works - Permission granted to Mysore Government - certain rules in the Indian Electricity Rules 1922 relaxed.

Public Works and Labour Department.

G. O. No. 2134 W. Dated 27th August 1928.

O R D E R :-

Under Section 28(1) of the Indian Electricity Act 1910 (as amended) His Excellency the Governor-in-Council hereby authorises the Government of Mysore to supply electrical energy to the Dam works at Mettur in accordance with the agreement entered into by that Government with the Government of Madras, and subject to the condition that the provisions of Sections 17, 18 and 21 of the Indian Electricity Act are complied with in respect of works and supply in British territory.

2. Under rule 103 of the Indian Electricity Rules 1922, His Excellency the Governor-in-Council hereby exempts the Mysore Government from the provisions of rules 55 (1 and 2), 56(1), 59, 61, 62 (1), 63 and 66 of the same Rules, in respect of works and supply in British territory, subject to the condition that no conductor of an aerial line erected in, over, along or across any street shall be at a less height from the ground than 20 feet and at places other than road crossings the height from ground shall be not less than 15 feet.

3. In exercise of the powers conferred by section 51 of the Indian Electricity Act, (IX of 1910) as amended, His - - - - Excellency the Governor-in-Council hereby confers upon the Chief Electrical Engineer to the Government of Mysore, for the placing of appliances and apparatus for the transmission of electrical energy and telephone messages from the point of entry in - - Sattegalam village of the Kollegal taluk of the Coimbatore district to the Mettur Head Works in the Bhavani taluk of the same district - the route of which is shown in the deposited map -

the powers which the Telegraph authority possesses under Sections 10 to 18 of the Indian Telegraph Act (Act XIII of 1885) with respect to the placing of telegraph lines and posts for the purposes of a telegraph established or - - maintained by the Government or to be so established or maintained. The exercise of these powers is subject to the provisions of the said Indian Telegraph Act of 1885 and also to the following further conditions:-

(1) All telegraph and telephone lines crossing the the transmission lines shall be efficiently guarded to the satisfaction of the telegraph authority

(2) In all cases where telegraph and telephone lines are diverted or altered at the request of the Chief Electrical Engineer to the Mysore Government, the cost of such diversion or alteration shall be borne by the Mysore Government.

(By order of the Governor in Council)

Bangalore 18th Novr. 1928.
(S. India.)

CB-1983.

Dear Mr. Madhava Rao,

Metur Power Supply. PP87-27-4

8916

With reference to correspondence ending with your memorandum No.1260/P.P.87-27-15 dated the 8/10th Septr.28, I would be glad if you would kindly let me know if you have received Madras Government's finally signed and accepted agreement and, if so, will you kindly send me a copy. In your No.1435 dated the 27th June 1928 to the Secretary to the Hon'ble The Resident in Mysore you suggested that the last sentence of Clause 15 might be omitted and that as Clause 7 had been renumbered as Clause 8, the reference to this Clause contained in Cluase 12 (d) should be corrected and I would like to have copies of the final agreement embodying these corrections.

C 2. In the 2nd paragraph "Conditions of Supply", the words "three phase" appear after the words "2200 Kva." which are incorrect and should read "single phase". This sentence in this paragraph will then read as follows:-

> "The power will be transmitted to Metur over a duplicate circuit transmission line and there stepped down by means of three 2200 K.V.A. single phase transformers with a fourth transformer as spare"

I do not know how this mistake got into the agreement and should be corrected.

D 3. The Madras Government, in their letter No.3695B/28-6 dated the 27th April 1928 to the Hon'ble the Resident in Mysore, have, in pragraph 4, accepted our condition to reimburse Mysore Government for any Income-tax that we may have to pay on account of our earnings under this agreement and have also agreed to bear the extra cost involved in any

departure from our standard practice that the Madras Government may find it necessary to require and to make allowance for any delays entailed by such changes, but these terms and conditions do not appear in the copy of the agreement sent to me with your No.45/PP.87-27 dated the 4th July 1928 and I would be glad if you would kindly let me know if they should not be so included in the formal agreement.

I have not received a copy of the formal orders, mentioned in paragraph 3 of the Madras Government's letter No.3695B/28-6 dated the 27th April 1928, unless Madras Government's Order No.2134W dated the 27th August 1928 sent to me with your memorandum No.1260/PP.87-27-15 dated 8/10th September 1928 is their formal order and, if so, the following words should be added in paragraph 3 (1):-

> " The cost to be borne by the party last constructing their line"

In any case, these words should be added to provide that the Telegraph Department, or any one running lines across our Transmission Line, shall bear the cost of guarding and other protection. We will, of course, bear the cost of guarding telephone and telegraph lines which are already in existence at the time of constructing our line.

If the agreement has not been formally signed and sealed I would be glad if a clause be added to paragraph 14 as Clause (3) to provide for one-hour pre-arranged stoppage of power per month for shutting down the system for inspection, repairs, or connection of new plant for the purpose of ensuring a continuous supply of power. This one hour stoppage to extend to 6 hours once in 6 months. That is, the stoppages on account of this purpose to be accumulated up to 6 months.

6- If it is permissible at this stage of the negotiations, I would like to send you a draft of the agreement including

the above suggestions and will do so on hearing from you.

Yours sincerely,

SGF-PRN.

To

S.G.Forbes Esq.,B.Sc., &c.,

Chief Electrical Engineer in Mysor

Dear Mr.Forbes,

With reference to your D.O.letter No. 2307 dated the 18th instant, about Metur Power Supply, I am desired to state that a copy of the agreement as finally executed has already been sent to you with this office letter No.45/P.P.87-27 dated the 4th July 1928 and that the Madras Government have sinc agreed to the alteration of clause 7 into 8 referred to in clause 12(d) of the agreement. They do not however agree to the omission of the last sentence in clause 15 of the agreeme

The words "three phase" referred to in para 2 of your letter appear in the drafts sent by you and the Madras Government and over

in the final agreement also. ~~Hence there~~ was no mistake here on that point.

As regards ¶ 3 of your letter I am to state that in view of the assurance given by Madras Govert ent to reimburse the Mysore Government for any incometax that they have to pay it was not considered necessary to refer to it in the agreement. // With regard to para 4 ~~Proceedings of~~ the Madras Government ~~dated 27-8-1928 is the order promised to be issued by them~~ in their letter of 27th April 1928. If the addition proposed by you is considered necessary a reference will have to be made to the Residency on the point. But obviously the meaning appears to be the same, that the party last constructing should bear the cost.

With reference to paras 5 and 6 the agreement has been finally executed and it is perhaps ~~now~~ too late now to make any additions to it. ~~I am however to add that it is perhaps desirable to~~ discuss ~~the matter in person also~~. We may all these points be discussed when next I am to Bangalore.

Yours sincerely,

Chief Secretary to Govt.

B.K.V.

2682/P.P.87-27-17

Dear Mr.Forbes,

With reference to your D.O.letter No.2307 dated the 18th instant, about Metur Power Supply, I am desired to state that a copy of the agreement as finally executed has already been sent to you with this office letter No.45/P.P.87-27 dated the 4th July 1928 and that the Madras Government have since agreed to the alteration of clause 7 into 8 referred to in clause 12(d) of the agreement. They do not however agree to the omission of the last sentence in clause 15 of the agreement.

The words "three phase" referred to in para 2 of your letter appear in the drafts sent by you and the Madras Government and in the final agreement also.

As regards para 3 of your letter, I am to state that in view of the assurance given by Madras Government to reimburse the Mysore Government for any income-tax that they have to pay it was not considered necessary to refer to it in the agreement.

With regard to para 4 the order promised to be issued by the Madras Government in their letter of 27th April 1928 is the one dated the 27th August 1928 copy of which was sent to your office on the 10th September 1928. If the addition proposed by you is considered necessary a reference will have to be made to the Residency on the point. But obviously the meaning appears to be the same viz that the party last constructing should bear the cost.

With reference to paras 5 and 6 the agreement has been finally executed and it is perhaps too late now to make any additions to it

The Chief Secretary to the Government
of H.H.The Maharaja of Mysore,
B A N G A L O R E.

Sir,

Power Supply to Cauvery Metur Project Works.

I have the honor to inform you that a partial supply of power was made available to the Cauvery Metur Project Works at 2-30 p.m. on the 24th November 1928 and I have in my No.3744 of date officially notified the Engineer-in-Chief, Cauvery Metur Project. A copy of my letter to him is sent herewith.

2. The Cauvery Metur Project Works did not begin to consume power until 4-15 p.m. on the 25th November 1928 since which time they have been gradually increasing their load until they are now consuming approximately 275 H.P.

3. It is expected that the full supply of power will be available by the 7th December 1928, which is about 3 months earlier than the due date provided for in the agreement, althou the partial supply was late by 10 days. This is, however, not important as the Cauvery Metur Project authorities were not ready to take power on the 24th November 1928, taking power only at 4-15 p.m. on the 25th November 1928.

I have the honor to be,
Sir,
your most obedient servant,

S G Forbes

Chief Electrical Engineer

Dear Mr. Madhava Rao

Metur Power Supply Contract.

I have your D.O.No.2682/P.P.87-27 dated the 3rd instant and in reply would say that I have changed the figure 7 into 8 in Clause 12(d). As explained to you the other day in person, the mistake in paragraph 2 got into the original draft sent by me to you, but as it is necessary to change this to provide for single phase transformers, I would request you to kindly write Madras Government.

With regard to the pre-arranged stoppages, I will discuss the question with Mr. Mullings informally the next time I visit Metur and come to a working arrangement with him. I am sure I can do this and that it will not be necessary to raise the question formally with the Madras Government.

Yours sincerely,

SGF-PRN.

OFFICE OF THE CHIEF ELECTRICAL ENGINEER,
MYSORE, INDIA

Bangalore 18th Decr. *192* 8.

PP87-27-21

CHIEF SECRETARY.
18 DEC. 1928
M512

The Chief Secretary to the
Government of H.H.The Maharaja of Mysore,
BANGALORE.

Sir,

Power supply to Cauvery Metur Project Works.

In continuation of my No.37448 dated the 1st December 1928, I have the honor to inform you that the full supply of power, as is provided for in the agreement dated the 27th June 1928 between Mysore and Madras Governments, has been made available to the Cauvery Metur Project Works on the 18th December 1928 and the fact has been intimated to the Chief Engineer, Cauvery Metur Project in my letter No.37961 of even date, copy of which is sent herewith.

2. The agreement does not make clear as to how the notice of the availability of the full supply of power shall be made and I am of the opinion that Mysore Government should officially notify the Madras Government so that there can be no question as to the date of application of the minimum provided for in Clause 12(a) of the agreement.

I have the honor to be,
Sir,
Your most obedient servant,

SGF-PRN.

Chief Electrical Engineer
